Organizer: Clara's College of Education in collaboration with Ekata Manch NGO.

REPORT

Free medical camps are set up with a sacred aim to bring awareness amongst the deprived population of the country who have no access to basic healthcare services or knowledge about the diseases they are suffering from. So, Medical camps like these help people by providing free medical advice, medicine to the unfortunate people and refer them for specialized treatment or surgery whenever it is required. These camps make sure people are getting the healthcare at the right time, and seeing the doctor early enough before a small health problem turns serious.

Medical camps are conducted by health professionals to carry out a limited health intervention amongst the underprivileged community. The poor attend these camps to get free check-up and treatment. Getting the appropriate kind of health checkup

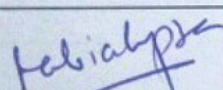

is vital for every human being and while considering it, some important factors like age, lifestyle, family background, and risks are taken into account.

Health examinations and tests at the early stages of the illness can help to cure it faster and save a life before it can cause any damage. One can live longer and healthier only when the individual gets the right kind of health check-up, screening, and treatments. Even the most basic checkups can identify underlying illnesses.

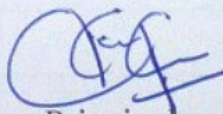

Clara's College of Education in collaboration with Ekata Manch organized a Medical Camp on 14th April 2022. Timing for the camp was from morning 8.00 a.m. to 5 p.m. in evening. Students were allotted different duties like Registration of Patients, Registration of Volunteers, Different Booth duties like Cancer Booth, Gynecologist Booth, Bone Density Check-up, Eye Check-Up booth etc. Each and every student performed their duties with utmost sincerity
